Company Talk

Merck KGaA

Meet your potential future employer!

The RIGeL Excursions & Industry Relations group organizes virtual excursions, so called company talks. Leaders and members of different companies will give an insight into the structure and work-flow of the companies and provide PhD students and students with useful hints for applications.

The second company talk will be given by **Merck KGaA**.

Merck KGaA is a German company with a wide product portfolio ranging from cancer and neurology research (Healthcare) through lab material And media (Life Sciences), to semiconductors (Performance Materials). It is the world's oldest operating chemical and pharmaceutical company, as well as one of the largest pharmaceutical companies in the world with 58,000 employees in 66 countries.

Petr Jirasek (Drug Substance Expert for New Chemical Entities) will introduce the company **Merck KGaA** with a focus on Research and Development in the Healthcare section. He will give insight into his work in process chemistry and the development of novel active ingredients.

Wednesday, 26.05.2021

16.00, via Zoom
