

Work with the Experts in Biophysics

2bind
molecular interactions

Scientist I / Technical Assistant (m/f/d)

🎓 MTA, BTA, CTA, B.Sc., M.Sc. 📍 Regensburg ⌚ full-time 📅 2023-01

What to expect and who we are

2bind is one of the world-wide leading contract research organizations in the field of biophysical analytics. Our clients and partners come from pharma, biotech, and academia. Our mission is to support these clients with innovative biophysical services and assays. 2bind utilizes MST, Spectral Shift, Dianthus, GCI, BLI, ITC, and heliX for studying molecular interactions for early drug discovery. Additionally, nanoDSF, DLS, and HPLC methods are applied for protein bioanalytics, pre-formulation development and antibody development. Highest scientific and technical standards are guaranteed: 2bind is the first service provider in the market that is certified for almost all of the above technologies. 2bind is based in Regensburg, the center of the emerging South German "Bio regio", a cluster of high-tech, biotech, and life science industry players.

As Scientist I / Technical Assistant (m/f/d) you are responsible for the characterization of molecular interactions mainly using the MST and Spectral Shift technologies.

You will handle the following tasks in an independent and self-organized manner:

- Planning, preparation, and conducting of MST and Spectral Shift based interaction assays
- Data analysis and reporting to Senior Scientists
- Supporting digital lab infrastructure and lab organization
- Supporting the development of novel analysis methods in the area of interaction analyses
- Supporting the integration of novel biophysical methods into our portfolio

You will benefit from:

- A brand-new, modern and spacious >1000 m² lab and office space, easy to reach by public transportation, bike, or car.
- Highly skilled colleagues in an employee-oriented work environment.
- Regensburg as a beautiful and lively mid-size city with attractive leisure activities

Who you are

- You have successfully completed your education and training as MTA, BTA, CTA (or equivalent) or hold a B.Sc. or M.Sc. with a focus on biophysics, biotechnology, biochemistry or biology.
- You hold at least two years of professional experience in laboratory work in an industry setting.
- You strive to bring your best to our growing and dynamic team. Your coworkers experience you as particularly reliable, clear in communication, and well organized.
- Working in a high-speed, customer, and quality-oriented environment is natural to you.
- You are fluent in German (written and spoken) and have a good basis in technical English (written).
- Most importantly, you want to have fun with like-minded people.
