## Prof. Douglas W. Yu

**Professor of Ecology**

University of East Anglia · School of Biological Sciences  
United Kingdom · Norwich

&

**Principal Investigator**

Kunming Institute of Zoology CAS · State Key Laboratory of Genetic  
Resources and Evolution  
China · Kunming

„High-Throughput  
Biodiversity Conservation“

I describe how my group and collaborators are using environmental DNA, metabarcoding, and metagenomics to accelerate data acquisition for biodiversity management and conservation.

We would like to give you the opportunity to meet Douglas Yu in a joint meeting together with other PhD students. If you are interested and would like to join, please write a mail to [ellen.pagel@ur.de](mailto:ellen.pagel@ur.de) by 1<sup>st</sup> of March at the latest. Credit points (0.1) are available for participation.

Host: Graduate Colloquium
