LEXOGEN
Enabling complete transcriptome sequencing

www.lexogen.com

Attend our Seminar:

RNA-Seq Experiment Pipeline

Transcriptome Analysis Solutions and Spike-In Controls in RNA-Seq Workflows

The seminar will give an overview of Lexogen's complete solutions and services for transcriptome analysis by NGS (RNA-Seq). It will more specially focus on the usage of SIRVs as RNA-Spike in Controls in RNA-Seq experiments.

2:00 – 2:30 pm: Overview of Lexogen's RNA-Seq solutions
2:30 – 3:30 pm: RNA-Seq Spike-in Controls
3:30 – 4:00 pm: Questions & Discussion

Lukas Paul, PhD – Senior Manager of Scientific Affairs, Lexogen GmbH
Jean-Baptiste Mariaux, PhD – Business Manager DACH, Lexogen GmbH

Monday, 2nd March 2020, 2 pm

BIG - bioinformatics interest group, Universität Regensburg, Universitätsstraße 31, H53

Host: BIG - bioinformatics interest group and Regensburg International Graduate School of Life Science, Contact: Simon Holzinger
