

Prof. Dr. Hermann-Josef Gröne

Abteilung Zelluläre und Molekulare Pathologie, DKFZ Heidelberg,
Gastprofessor am Biochemisch-Pharmakologischen Centrum der
Philipps- Universität Marburg

Critical Role of the Renal Shiga Toxin Receptor in Albumin Absorption and Toxic Renal Failure

Research focus of Professor Gröne:

Professor Gröne is concerned with renal epithelial differentiation with special emphasis on Wnt signaling pathways and the plasma membrane microdomain-forming glycosphingolipids.

Time: Tuesday 18th June 2019, 17:15h
Location: Raum VKL 4.1.29
Institut für Physiologie
Universität Regensburg

The seminar is video transmitted to:
Pathologie Universitätsklinikum Erlangen
Krankenhausstr. 8-10
Oberer Hörsaal, Raum A 2.150
