

Storytelling for scientists

Duration:	Equivalent of 2 workshop days. This course includes 3-4 live webinar sessions.
Course type:	20% theory, 80% practical work
Trainer:	Karin Bodewits
Target group:	All (PhD students to professors)

We all enjoy a good story, whether it's during a presentation, a job interview, a conference coffee break, or simply during a pub night. Why? It activates the same areas of our brain that would be activated during the actual event. Consequently, audiences feel so

much more engaged when they hear a narrative about your real-life experiences as researcher or how you finally chased that superbug down. Much more than if you monotonously talk them through a list of bullet points on a power point slide. But to be understood when talking about one's own research work, let alone to speak about yourself, is not easy for many researchers. During this seminar, you learn to enchant a wide range of audiences with science stories and to captivate a lay audience with complex research results. Because... speaking science can be magical!

<p>The power of storytelling</p> <ul style="list-style-type: none"> - Why do we need story? - When to use story? - What we can learn from TED talks - Explain science through story 	<p>Storylines</p> <ul style="list-style-type: none"> - Using the ABT model - Why stories need conflict
<p>Types of stories</p> <p>From mystery to comedy</p>	<p>1 sentence and 1 paragraph stories</p> <p>Your key message</p>

<p>Individual feedback from the instructor</p>				
<p>The participants work individually through the materials (eBooks, podcasts, movies, example posters) and assignments.</p> <p>The instructor provides regular feedback.</p>				

About making notes during the course

All participants receive a script of the course in PDF format for offline and future use so that they can work through the material offline as well as after the course.

This online course can be followed up by a lively (online) evening programme (e.g. at a retreat) with personal- or science story contributions from all course participants. The evening programme will be moderated by us with humour and absurdity.
