CHAPTER 1

Introduction

1.1 Motivation

I was motivated to write a Phd thesis because I did not want to work directly after finishing my study. My topic is about *Physarum Polycephalum*, which is a slime mold.

1.2 Organization

This thesis is organized as follows, ...

2.1 Inserting a Table

Some text ... We refer to Schön [1] for things you ...

Table 2.1: My table from Excel

Name	Age	Score
Maria	23	1
Thomas	21	0.78
<i>Alicia</i>	19	0.27
Mark	31	0.45

2.2 Inserting a Graph

A scary and maybe exaggerated Graph is shown in Figure 2.1.

Figure 2.1: Detailed caption

3.1 Inserting an Image

An example figure is shown in Figure 3.1.

Figure 3.1: Detailed caption

3.2 Using Algorithms

Of course, you can reference Algorithm 1 in the usual way.

Algorithm 1 See how easy it is to provide algorithms

Require: a

$b = 0$

$x \leftarrow 1 : 10$

for all x **do**

$b = b + a$

end for

return b

Schön *et. al.* ([REF]!) have been scientifically proven that the psychological stress during writing your PhD thesis leaves a disorder from that you never will retire completely (Better double check that!!). [Todo: Search for and include some examples here, maybe a graphic!]
